WHO WE ARE?

Panhandle Metals is a leading manufacturer of steel structures. We craft, deliver, and install high-quality metal buildings for our dealers and customers. Our years of experience and expertise makes us the perfect partner for you, if you're entering into the metal building industry or expanding your steel structure business. We have been in the business for years now and have the experience and expertise to get the job done right. When it comes to metal buildings, Panhandle Metals is the name you can count on. We're your building manufacturer and your expert advisor.

WHAT WE DO?

We design and build a wide range of best-quality metal structures including garages, carports, barns, recreational vehicle covers, workshops, loafing sheds, and more. Our focus is on fulfilling the needs and expectations of our partner dealers and customers. Whatever your requirements are, we can deliver you the structure of your dreams. We provide metal buildings in Amarillo, Borger, Canyon, Dumas, Hereford, Pampa, and many other locations in Texas while also covering certain areas of Oklahoma and Kansas.

LOCATIONS WE SERVE

Our team is ready to deliver your steel building in Texas, and some parts of Oklahoma, and Kansas. Our building professionals have installed 5000+ metal structures for dealers and customers. And counting on the experience, we are sure to make your building process as effortless as possible.

TEXAS

OKLAHOMA

KANSAS

DELIVERY AND INSTALLATION TIME

Delivery time may vary depending on the location and size of the building. But we strive to deliver and install your building in a timely manner, with a waiting period of **2 to 6 weeks**. Although, we try our best to deliver your building in no more than **60 days**.

Installation time for small carports or sheds is **2 to 3 hours**, for a standard garage it is **6 hours**, and for a standard barn **8 hours**. For large buildings, installation may take a few days.

BUILDINGS WE OFFER

We provide a wide range of metal buildings tailored to your requirements and criteria.

TX METAL BUILDINGS

Metal buildings are becoming increasingly popular, regardless of location. These buildings can be used as a garage, barn, carport, or even as a home. In addition, all of our steel buildings are certified against bad weather conditions.

TX CARPORTS

Metal carports are highly versatile and durable structures that can protect a wide range of vehicles, including bikes, cars, ATVs, boats, and trucks. The steel framing of these buildings is made up of galvanized steel, which is incredibly strong and provides excellent protection against harsh weather conditions like snow, wind, and rain.

TX GARAGES

An enclosed garage structure will protect your possessions from the elements and also give you some extra space to store equipment, tools, and other valuables. If you are the owner of expensive cars, RVs, or other vehicles, these custom garages will easily meet your needs and specifications.

TX UTILITY & COMBO STRUCTURES

Utility buildings are multifunctional, meaning they can be used for a variety of purposes. Want to park your car in a shelter and also want to use the space as a guest room? No problem! These buildings are custom-built, so you can have them designed according to your needs and specifications.

806-553-3026

info@panhandlemetals.com

TX RV COVERS

At Panhandle Metals, we manufacture and sell 100% American-made, high-quality, and affordable RV covers. Our wide range of RV carports and RV garages provide the strongest protection from outside elements for your RV, camper, boat, motorhome, fifth-wheel, and more. You can even choose to customize your metal RV carport kits to suit your every need and application.

TX LOAFING SHEDS

It is essential to care for your animals and make sure they are comfortable all year round. At Panhandle Metals, we understand this need and offer a wide range of loafing sheds. These sheds are built with high-quality galvanized steel that can withstand extreme weather conditions like heavy winds, rains, snow, and even harmful UV rays. They are the perfect shelter for your livestock, hay, and other farming utilities.

TX METAL SHEDS

Looking for an investment that will give you extra storage space for your belongings and vehicles? Look no further than a metal shed from Panhandle Metals. We can customize your shed to be open-sided, semi-enclosed, or fully enclosed, depending on your needs. You can also choose from a variety of designs, roof styles, colors, and other features and get that perfect shed of your dreams.

TX BARNES

If you're looking for a sustainable and durable option for your farming business, a metal barn is a great choice. They are strong and versatile, and can easily protect your farm animals, equipment, hay, vehicles, and other valuables from the harsh elements. We, at Panhandle Metals, offer high-quality barn buildings that are designed to withstand all kinds of weather, including high winds, snow, and rain.

INSULATION

Panhandle Metals installs Prodex insulation on customers request. With Prodex Total Insulation, you can create a more comfortable environment for a variety of purposes that will last as long as your building stands. This type of insulation is the highest quality metal building insulation available, with a single-layer rating of R16 and a double-layer rating of R21. Our customers use Prodex Total Insulation to turn their buildings into the spaces they've always dreamed of. This insulation will stay in place no matter how long your building stands.

THERMIC INSULATION

WATERPROOF ISOLATION

806-553-3026

info@panhandlemetals.com

→ THERMAL BARRIER

* Inside layer made of heat-sealed insulating bubbles. Eliminates convection and conduction heat transfers (can represent 25% of all energy loss/gain in your building).

→ RADIANT BARRIER

* The highly reflective surface of metalized foil (made of 99% pure aluminum) and white polyethylene eliminates radiant heat transfers (can represent 75% of all energy loss/gain in your building).

→ VAPOR BARRIER

Combined product material acts as vapor barrier. Protects against condensation and mildew.

The highly reflective surface provides optimal thermal performance:

- 97% radiant heat reflection.
- Acts as a vapor barrier.
- Maximize Thermal resistance (R value) without adding significant thickness to the insulation system.
- Helps maintain temperature and humidity distribution of the structure at time of construction.
- Can be used on its own, or in conjunction with massinsulation.

Sources of Heat Loss in an Uninsulated Wall Cavity

In reality, a large portion of heat is gained/lost by radiant means. Radiant Insulation reflects heat that is trying to enter your cool living space back out so that it never gets to you. This provides for much cooler buildings in the summer. By the same means, if you use a reflective product facing into the building, you will reflect the heat you produce in the winter back into the building.

Reflective Insulation = Warmer Winters & Cooler Summers

Better Alternative

Reflective Insulation is a uniquely designed system made from layers of insulating air bubbles encased by a reflective surface. This unique combination delivers a high performance insulating product suitable for all construction and home renovation projects.

Summer

Reflects heat away from your living spaces, blocks significant heat gain in your house, and cuts air conditioning costs.

Winter

Reflects escaping heat back towards your living spaces, reducing heat loss, and lowering heat bills.

ONLY \$1.50 Per Square Foot

► Prices may vary from state to state

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.

CERTIFIED GAMBREL STYLE BARNS 35 LBS PSF/140 MPH

To price a Gambrel Style Barn, simply add the cost from the table below to the All-Vertical Fully Enclosed Building you are interested in.

	20' Long	25' Long	30' Long	35' Long	40' Long	45' Long	50' Long
12' to 20' WIDE	\$1,230.00	\$1,380.00	\$1,560.00	\$1,710.00	\$1,890.00	\$2,040.00	\$2,190.00
22' to 24' WIDE	\$1,710.00	\$1,890.00	\$2,040.00	\$2,190.00	\$2,370.00	\$2,520.00	\$2,700.00
26' to 30' WIDE	\$2,730.00 +DOUBLE LEG OPTION	\$3,120.00 +DOUBLE LEG OPTION	\$3,690.00 +DOUBLE LEG OPTION	\$4,110.00 +DOUBLE LEG OPTION	\$4,500.00 +DOUBLE LEG OPTION	\$4,920.00 +DOUBLE LEG OPTION	\$5,310.00 +DOUBLE LEG OPTION

NOTE: Lift Required on All Sizes.

NOTE: Building must be vertical and fully enclosed in order to get Gambrel Style Barn. Customer is also responsible for providing the proper lift (Reach Lift) to ensure a safe and efficient install.

HOW TO PRICE INSULATION

Add extra feet to width of roof

WIDTH	REGULAR	A-FRAME
12' - 22' Wide	2' Add On	2' Add On
24' Wide	2'6" Add On	2'6" Add On
26' Wide	2' Add On	3' Add On
30' Wide	2' Add On	3' Add On

Example: A-Frame 18' Wide X 25' long X 7' Height

► Prices may vary from state to state

1. Roof

1. [Width] x [Extra Ft.] = [Answer]
2. [Answer] x [Length] = Square Footage
3. [Square Footage] x [\$1.50] = Cost

Roof cost

1. [18'] x [2'] = [20']
2. [20'] x [25'] = 500'
3. [500'] x [\$1.50] = **\$750.00**

2. Sides

1. [Length] x [Height] = Square Footage
2. [Square Footage] x [\$1.50] = Cost
3. [Cost] x [2] = Both Sides Cost

One side cost

1. [25'] x [7'] = 175'
2. [175'] x [\$1.50] = 262.50
- Both Sides Cost
3. 262.50 x 2 = **\$525.00**

3. Ends

1. [Leg Height] x [width] = Square Footage
2. [Square Footage] x [\$1.50] = Cost

One end cost

1. [7'] x [18'] = 126'
2. [126'] x [\$1.50] = \$189.00
- Both Ends Cost
3. 189.00 x 2 = **\$378.00**

Roof Cost

Both Sided Cost

Both Ends Cost

Total

$$\text{\$750} + \text{\$525} + \text{\$378} = \text{\$1,653.00}$$

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.

YOUR BUILDING WILL BE SHIPPED IN A TRUCK WITH A TRAILER

We ensure maximum safety while delivering and installing your **metal building**.

This is a normal Truck and Trailer that crew will be using to bring your building to the site. Do you have room for them to reach job site, unload and turn around? Is there a steep hill or sharp curve they will have to attempt to climb that could hinder their progress?

SPECIFICATIONS AND ACCESSORIES

* If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.

* Panhandle Metals strongly recommends a vertical roof on all buildings over 36' long.

* Waiver required on warranty and leaks on horizontal roofs over 36' long.

CONCRETE SLAB RECOMMENDATIONS

The professionals will install the anchors, Customers/General Contractors, are not responsible for installing anchors. When considering Concrete Slab options, it should be noted that they are only applicable for buildings with a width of up to 30 feet and must feature a 4-inch thick slab with a 12-inch x 12-inch perimeter footing. Check your local building code while considering the slab.

OPTION 1 - SLAB SIZE BIGGER THAN THE BUILDING

We suggest that the customer increase the slab size by 3" all around to reduce the risk of cracking. They should be advised that any water will run under the base rail, and this is not considered a repair. We can offer a temporary solution of applying silicon sealant; however, we do not guarantee it will be 100% waterproof. Also, the customer will be charged for the installation of silicon sealant, and the warranty will not cover this as it is not part of our product range.

OPTION 2 - SLAB SIZE SAME AS THE BUILDING

This option includes having the concrete slab match the size of the unit. To stop water from seeping below the base rail, the panel can be extended to cover some of the edges of the concrete. For the unit to be securely fastened, it is strongly suggested to include welded angles with an additional cost*. Furthermore, two L-Brackets should be affixed to both the sidewalls and end walls of each post.

CONCRETE PERIMETER FOOTING

- Customers can pour concrete footings for their unit, which is more cost-effective as it does not include a full concrete slab.
- For units up to 22' wide, the minimum footing size should be 12" wide by 12" deep, or as required by local code.
- For units 23' - 30' wide, the minimum footing should be 15" wide by 12" deep, or as required by local code.
- This is applicable for a wind rating of 110 MPH; for any other requirements, contact engineering for more information.

CONCRETE PIERS FOUNDATION

- Concrete piers are another option and should be placed on the corners of the unit and alternating posts.
- For units up to 22' wide, concrete piers should have a minimum width of 18" and a depth of 36".
- For units between 23' and 30' wide, concrete piers should have a minimum width of 24" and a depth of 36" for a wind rating of 110 MPH.
- For any other requirements, contact engineering for more information.

Panhandle Metals Highly Recommends Concrete Ground Support on Dirt Surface Installation

WHY PANHANDLE METALS

OUR FOUNDERS' VISION

Our founders have a strong vision for the services we provide and strive to maintain the highest standards for every customer. We are proud to be an American-owned and operated business, which allows us to create bespoke metal solutions with only the best materials and craftsmanship. All our metal structures come with a 20-year rust-through warranty and workmanship warranties, so you can be sure you are partnering and investing in a quality building from a reliable provider.

Our objective is to serve our partner dealers and customers efficiently by fulfilling their needs and expectations. With years of experience and thorough knowledge of the industry, we are delivering the best building solutions and services. Our products are installed and delivered in Texas and some parts of Oklahoma and Kansas.

JOIN US AND EXPERIENCE THE REAL BUSINESS GROWTH

The process to become an authorized dealer of Panhandle Metals is easy and hassle-free. To begin the process, simply contact our Dealer Services team at **806-553-3026** or via email at info@panhandlemetals.com. We will add you to the inspection list and then send a representative to your location to conduct an inspection and interview any individuals involved with the dealership. Once this is done, we will be able to officially approve you as a dealer.

OUR REPRESENTATIVE WILL BE CHECKING FOR A FEW THINGS:

- ▶ Good location with high traffic road frontage
- ▶ Space for a display unit
- ▶ That the new location is not too close to an existing dealer
- ▶ Competent and honest dealer
- ▶ That the business is well established
- ▶ Business locations are preferred

DEALER RESOURCES

Panhandle Metals equips dealers with order forms [contracts], quote forms, full-color catalogs, fliers, signs, banners, and a display building. Dealers have the liberty to advertise our buildings as if they were independent franchises. However, we expect them to be accurate and honest when promoting our products and services.
